and many.

Washington, D. C., March 29 .- The last remote hope that any of the crew of submarine F-4 might be alive has been abandoned by the navy department. There have been no advices from Honolulu since Friday night, when it was reported the boat was in 50 fathoms.

Honolulu, March 29 .- The submerged P-4 has been located outside the harbor, it was announced this morning. Parts of the superstructure have been brought to the surface. Tugs, with drags, will criss-cross in all directions, and an attempt will be made to lift the submarine.

VESSELSUNK BEFORE LIFE **BOATS FLOAT**

British Charge Cruel Act to Crew of Enemy Submarine,

MANY LIVES ARE LOST

Attacking Boat Said to Have Offered No Aid to Those Seen Struggling in the Sea.

London, March 29 .- The British steamer Falaba was sent to the bottom yesterday on the coast of Wales. The loss of life was probably heavy.

The Falaba, 380 feet long, with net tonnage of 3,000, was owned by the Elder line of Liverpool and was engaged in the African trade. The Falaba left Liverpool Saturday for the west coast of Africa with 140 passengers and a crew of 120 men.

Her officers stated that when the submarine appeared it whistied thrice as a signal for the steamer to prepare lifeboats, but before this could be done a torpedo struck the ship near the ongine room. Three of the Falaba's lifeboats

were swamped. Many on the vessels were thrown into the sea, where they struggled while the submarine circled about offering, according to stories of the rescued, no assistance. A fishing boat appeared and saved 140 of the passengers and crew. Captain Davis of the liner was picked up

The British steamer Agulla was sunk by a German submarine this morning off Bishop Rock, near the entrance to the English channel. Her crew of 23 were saved. The Aguila was 1,200 tons net and 275 feet long. She was owned in Liverpool
